A key component of ACA's educational program is individualized instruction. We have determined the most effective use of funds is to provide increased interventions and to maintain small class size in grades K-8. ACA will continue to offer small group Rtl aide support and small class sizes of around 21 students per teacher in all grades. Funds will directly support our school's low income and EL population through ELA and Math Intervention. We believe that this approach will have the greatest impact on our low income and English learner population.
